VOLUME 37

FRIDAY JULY 7 1944

NUMBER 9

Funeral Services For Mrs. C. E. Hancock

Funeral services over the remains of Mrs. C. E. Hancock, aged 60, who passed away at her home early Sunday morning July 2nd, were held in the 2nd Ward Chapel Wednesday evening, July 5th, at 7 p.m. with Bishop L. L. Palmer in charge. The choir was in charge of Jos. McLean with Mrs. Emma Dahl at the console. A lovely profusion of flowers covered the casket and the rostrum and there was a large gathering of friends present to show their respect to the family in their sorrow.

The opening song was "The Deepening Trials" followed by prayer by Elder O. H. Snow after which the choir sang "Sometime We'll Understand."

Elder Jos. A. Nilsson was the first speaker and gave some of the family history of deceased. He paid tribute to her as a mother and the fine family she had raised spoke more than words of her love and devotion to her husband and her children.

A violin solo was played by Edw. M. Kiddle.

Elder John F. Salmon was the next speaker and spoke of Life, Death and the Resurrection and the need and place for each in the life of the children of men. While death was always feared and came with sorrow to the loved ones left behind it was a great promotion in the progress of the individual toward eternal life.

Mrs. Sam Low and Reece Gibb sang "Oh My Father."

President M. T. King spoke on pre-existence and the Purpose of Life and showed how nobly we live why all these experiences came into the lives of God's children. Our actions in the pre-existence conditioned us here and our life here will condition us hereafter. He urged all to live in obedience to the word of God if they would have joy and eternal progress hereafter.

Bishop Palmer expressed his appreciation of the life and labors in the ward of deceased, and on behalf of the family thanked all who had in any way assisted during the illness and death of the wife and mother of the family.

The closing song "When the Mists Have Cleared Away" and the benediction was pronounced by Elder Parley Meldrum.

A large cortege followed the remains to the cemetery where the grave was dedicated by Elder J. W. Evans.

Mrs. Hancock had been seriously ill two or three weeks ago but was considered improving when a sudden turn for the worse Saturday night

AIR CADET FLASHES

The Squadron activities have been curtailed, for the examinations in the school. The years work has been fairly well completed and the boys are now waiting for the Summer Camp. This year we go to the R.A.F. Station at Penfold. Only senior boys with a good attendance record will attend the Summer Camp.

The Squadron received second prize as a group in the Parade on July 1.

The last Parade of the season will be next Sunday. All stores on loan will be brought in to the Equipment Officer for repairs, cleaning, and summer storage.

RUMOR AUGUST 8 ALBERTA ELECTION DATE

Edmonton, July 5.—The Edmonton Journal said in a news-story Tuesday "It was learned on high authority" an Alberta general election will be held Aug. 8. An official announcement by the government concerning the election date is expected to be made this week, the paper said. Premier Manning was not in Edmonton and could not be reached, "but it was reported that the election date was decided upon at a discussion of cabinet ministers Monday afternoon," the paper said.

1.20 INCHES OF PRECIPITATION IN CITY STORM

Lethbridge was thoroughly drenched Tuesday afternoon when a cloud burst dropped on the city and brought 1.20 inches of precipitation at Koryon Field within the half-hour torrential downpour. Shortly after the heavy storm started at 2:45, most of the city was darkened as frequent bolts of lightning 'blew out' electric power line transformers. Drizzling rain tapered off the deluge. This was the first storm of over an inch of rain here since July of 1942.—Lethbridge Herald.

We extend our sympathy to C.A. Hudson who received word the end of the week of the death in France of his brother Lance Corp. Norman Hudson who was killed in action.

brought the end. We extend our deepest sympathy to the sorrowing husband and children in their bereavement.

10,000 People Attend Raymond Stampede

History was made again this year in Raymond's Stampede and Race Meet. Never has the town entertained so many people as it did on Dominion Day morning. A light shower between 7 and 9 a.m. settled the dust and cooled the air so that the day was ideal. When the Parade started at 10:30 a.m. cars were lining the streets on both sides and watched while it filed past with two bands, the Stirling band in the lead and the Glenwood band in the centre. One of the boys of the Glenwood band had a broken leg and while the band was playing on the march he rode on the fender of a car and played his part.

The new bleachers were filled to capacity, and nearly an hour before the program started the grand stand was filled and hundreds were turned down. During the afternoon Ray Knight, father of the Stampede who was present was given a big hand by the crowd. Mel Finstead gave a demonstration of trick roping and loop spinning and Billy Bascom, son of Raymond (Tommy) Bascom gave a demonstration of trick riding and received a big hand, doing his stuff on an untrained horse which made it very difficult.

The 2nd Ward Open Air Pavilion was crowded each night with dancers, eager to trip the light fantastic and exchange greetings, despite tired dogs and barking feet. Thanks are due the Committee under the direction of L. D. King for the fine show put on, and while we are enjoying the memories of the show don't forget this group whose untiring efforts make it possible each year.

Following are the prize winners and a report on the parade and the program at the Town Hall corner:

A. K. LUND TOP RIDER AT RAYMOND STAMPEDE

Day money on June 30 was awarded as follows:

Wild cow milking contest—A. K. Lund, Milk River; Reg Kesler, and Carl Lybbert, Rosemary.

Saddle bronc riding—A. K. Lund; Mel Finstead, Picture Butte; Duffy Stewart, Cardston; Frank Manyfingers of the Blood Reservation.

Calf roping—Steven Fox, Blood Reserve, in 24 seconds; 2nd and 3rd split between Johnnie Sweet Grass of the Reserve and Dick Andrews of Claresholm, with 27 seconds; Jack Morton of Warner with 27-1/2 seconds.

Steer decorating—Frank Manyfingers, 7 4/5 sec; Frank Good Striker of Blood Reserve, 10 2/5 sec; Waldo Ross of Warner 11 2/5 sec; Vern Franklin of Cardston, 23 sec.

Bareback bronc riding—Claude Baker; Reg Kesler; Arnold Montgomery of Dorothy.

Boys' amateur bronc riding—Alex Eagle Plume Blood Reserve; Herh Doan of Warner; Pat Wolf Plume Boys' steer riding—Alex Eagle Plume, Harry Lafferty; Don Davis. Wild horse race—Frank Wolf Plume; Reg Kesler; Milton Adama.

Decorated cart or wagon (children)—Gairbrith children, Meldrum children.

Character costume—Carol Larson, Katherine Fromm.

Junior novelty—K. Hicklen, Junior Stone, Peter, Madill.

Boy Scouts or Cadets—Larry Dahl.

Sea Gulls—2nd Ward.

Cadets.

Scouts—1st and 2nd Ward.

Following the parade, a program

Students Furnish Program At Rotary

NEWS NOTES

Baptismal services were held at the 1st Ward Sunday when seven children were baptized, one of them from the Warner branch.

Mr. and Mrs. Jake Lybbert left the first part of the week for their home in Vernal, Utah after a two weeks vacation with relatives here and in Rosemary.

The L.D.S. Church group in Rosemary is sponsoring a Stampede to be held on July 21st. Karl Lybbert is director for the big event and a special invitation is extended to gain Raymond people to attend.

Mr. and Mrs. Clarence Hyde returned Sunday evening after spending a week's vacation with friends and relatives in Cranbrook and district. They report a very active branch of the L.D.S. Church at Jaffray, B.C. where the Atwood families are living.

was held at the town square, with the unveiling of the Honor Roll.

The program was under the direction of Teddy Wagstaff, president of the local Canadian Legion, and included an address by Mayor P. W. Cope, who spoke of the privileges of the vets of World War 1 and the privileges of the vets of World War 2 and congratulated the vets on their outstanding accomplishments and told of the souvenir booklet, the receipts from the sale of which will be added to a building fund towards the building of a memorial hall for the vets of World War 2 upon their return. A talk was given by J. W. Evans on the history and prospect of the town, and a prayer offered for our boys in service by O. H. Snow, chaplain of the Canadian Legion. He also spoke of the beautiful cenotaph erected on the town square by the Canadian Legion to honor the heroes of World War 1. The honor roll was unveiled by Mrs. Dave Richardson and Mrs. Jameson, who each have four sons in the service overseas. (Mrs. O. Lee also has four sons in the service.) They were supported by Jerry Witbeck of the Paratroopers; Sualie Reithman of the C.W.A.C. and P.O. Roberts of the R.C.N.V.R. John Landysheff, vice-president of the Canadian Legion, gave a talk on the "Invasion Launch" (the Canadian Legion first prize float) and concluding remarks by Ted Wagstaff who expressed his appreciation to the citizens for their support and all members who participated in making a success of Memorial Day.

J. O. Hicklen was chairman of the parade.

At Rotary on Monday the Grade XII students furnished the program and a very interesting meeting was held. There were 24 students and Mrs. Shortliffe as supervisor. Prodding the program Mr. A. C. 'Art' King was introduced to the meeting by Frank R. Taylor.

A few songs were enjoyed, and the home in Vernal, Utah after a two of the times by Misses Doreen Snow and Lois Fairbanks, and Douglas Allen and Tom Witbeck. Miss Kathleen Holmes rendered a vocal solo. The meeting was a decided success and students and Rotarians will be looking forward to students day a special invitation is extended to gain.

The Souvenir Booklet

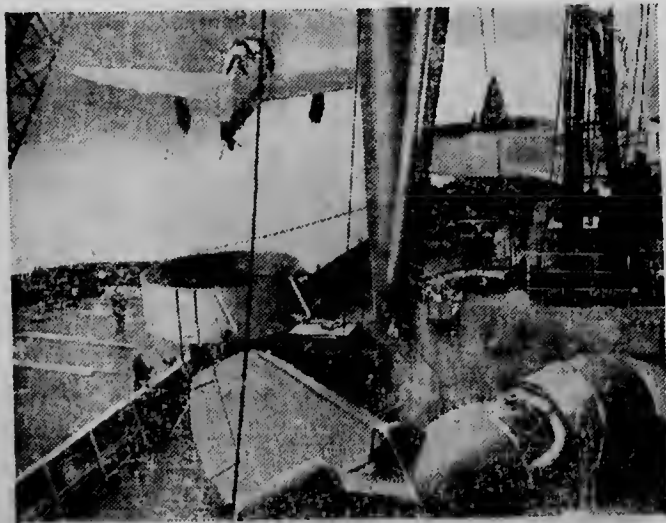

Have you obtained your copy of the Souvenir booklet compiled by the local Vets? If not you should do so at once. It is a fountain of information respecting our town and district, a directory of the men and women who are directing things, socially, religiously and temporally, a tribute to the boys and girls in the armed services, and something that each of them will want and you will want.

Look through one of these books and if you don't feel that it is good value and that you ought to have one we are sure no one will urge you to take one. Back of this booklet is a desire on the part of our returned men to do something tangible for the men and women now in the service. The profit from these books will make the start for a Club house for the Vets and also for a rehabilitation fund for those who need help when they get home. The Vet's executive spent long hours compiling this book, and are now working hard to sell it to help the boys and girls over there. All you are asked to do is to buy a book or two to aid the cause. You won't let them down will you?

Just when we thought we were going to have to tell about a week without rain, a thunder shower fell at 5 p.m. Thursday afternoon and freshened things up quite nicely. More rain is badly needed.

In addition to the fruits grown in Canada on a commercial scale, South Africa produces bananas, figs, granadillas, guavas, lemons, limes, loquats, mangos, nectarines, tangerines, oranges, papaws, pineapples, peaches, granates and quinces.

CAN IT BE IMPROVED

There is considerable complaint right now about the taste and odor of our town water supply. People are asking can it or cannot it be improved. Thanks to chlorine it is pure, but one needs a gas mask on and a neutralizer to his taste when he drinks. This is only part of it. The demand this summer appears to have dwarfed anything in the past. It seems to be impossible to maintain any pressure, even in the lower corners of town, & people in the higher part complain that for several hours at a time their taps are completely dry. Truly the Town Fathers have a problem.

We are zoned for the use of water for lawns, but some of us seem unable to read. A few have paid their \$3.00 for lawn water which they can't get, while others who don't pay the fee use the water any time and all the time free of charge.

If the list of water users have increased to the point where present facilities cannot provide the water supply, then it would seem to be the responsibility of the Town to either refuse any new connections, or else get busy and clean and enlarge the filter and storage tank and put in bigger motors so that more water could be provided for

use. People hate to see good lawns burned up for lack of water, and they hate to pay lawn water fees and some cases they are simply thrown overboard from the fighters which have crossed the Channel and allowed to drift to our troops waiting on the beach. Paper is used to insulate electric wiring used in gun and other controls.

"Paper vests," he said, "are even used to prevent the icy winds of the North Atlantic and Channel penetrating the outer clothing of the men of the Navy. Merchant Marine and the crews of the troop landing craft.

"The problem is simple," he went on. "We just haven't got as many men working in the fresh cutting wood for paper plants, or handling processing and shipping. Our paper mills are running away behind because of the tremendously increased demand for war supplies. You need waste paper and paperboard in the manufacture of new paper and new paperboard, and the supplies which are sent overseas are lost to us because they cannot be brought back to Canada."

"The answer is simple too: We need all we can get, and I believe Canadians will see that we get it."

Headed by S. O. and S. W. Low and Earl Peterson, Cardston Rotarians and Kataryannes were here Monday Day selling tickets on 'Mickey' the beautiful Apaloosa horse which the Cardston Rotary Club is giving away to assist them in their community projects. They had a very good response to their efforts.

Speaker—"I have lived in this town all my life. By actual count there are some 53 taprooms and saloons in the town, and I am proud to say I have never been in one of them."

Voice—"Which one is that?"

SALVAGE IS NEEDED

Ottawa, July 4th—"D-Day has now dawned and it is the duty and privilege of every Canadian citizen to back up the boys who are progressing splendidly in France and Italy and Charles LaFerte, National Director of the War Salvage Campaign yesterday. "One of our greatest need right now is waste paper and paperboard," he said. "It is required for war supplies, just as much as explosives themselves and the need is greater than it has ever been before. Although Canadians have co-operated wonderfully with us in the past, I do want to emphasize that this drive shouldn't be overlooked because of any feeling that paperboard and paper isn't needed."

"All Canada thrilled to the exploits of the paratroops who landed in France," he pointed out. "But how many of us realize that paper parachutes are used to land urgent military supplies along with the boys, or to be dropped to them later paper-

board containers are used to carry shells and other ammunition; in some cases they are simply thrown overboard from the fighters which have crossed the Channel and allowed to drift to our troops waiting on the beach. Paper is used to insulate electric wiring used in gun and other controls."

"Paper vests," he said, "are even used to prevent the icy winds of the North Atlantic and Channel penetrating the outer clothing of the men of the Navy. Merchant Marine and the crews of the troop landing craft. "The problem is simple," he went on. "We just haven't got as many men working in the fresh cutting wood for paper plants, or handling processing and shipping. Our paper mills are running away behind because of the tremendously increased demand for war supplies. You need waste paper and paperboard in the manufacture of new paper and new paperboard, and the supplies which are sent overseas are lost to us because they cannot be brought back to Canada."

"The answer is simple too: We need all we can get, and I believe Canadians will see that we get it."

SHUR-GAIN
News
OF THE WEEK

INCREASE EGG PRODUCTION

One of the surest methods of increasing egg production is to take every precaution with the health of each bird. One of these precautions is to be sure you have plenty of water for your flock at this time of year, and it will be helpful in stepping up fall production.

Water is cheap, and hens need plenty of it for vigorous health. Water softens the feed in their crops, aids in carrying feed through the digestive canal, and dilutes the various digestive juices. Failure to give water to the hen, upsets its normal laying function, which in turn throws off her production.

A hen producing from 130 to 150 eggs will consume nearly twenty gallons of water in a year. It is known that a bird will die more quickly from lack of water than any other farm animal. Give your hen plenty of clean, fresh water, and watch EGG PRODUCTION INCREASE.

Naturally with plenty of fresh water, give your hens SHUR-GAIN EGG-MAKER LAYING CONCENTRATE — which has been known to more than DOUBLE egg production in one year, and helps your hens lay all winter long. SHUR-GAIN EGG-MAKER LAYING CONCENTRATE contains egg making materials. It's low in cost, and easy to mix with your own grains. START USING SHUR-GAIN NOW — FOR PROFIT!

YOUR SHUR-GAIN DEALER:

RAYMOND CO-OP.

"I hope, dear, that you get up when you are called," wrote the fond mother to her boy in the army, "and don't keep the regiment waiting breakfast for you"

Professor—"Well, I hope that lesson is perfectly clear"

Student—"Yeh, clear as mud."

Professor (absently)— "Well, that covers the ground."

"I guess it's up to me!"

Now that I can go I'm not going to stick around and let the other fellows do it.

Bill and Jack went over last week, and Fred's been over there a year. Now it's my chance.

It's going to take months of training before I can get fighting-fit, so I'd better get moving today;

Yes sir! I'm going now, to tell Dad and Mom that I'm on my way to sign up.

ONE MAN'S INCOME
 IS ANOTHER MAN'S
OUTGO...

If rising prices and costs were allowed to keep pushing each other up, inflation would be unavoidable. That's what inflation is—a panic rise in prices—with money losing its value and confusion everywhere. To prevent inflation, a ceiling has been set on prices and profits,—wages and salaries have been controlled.

If one person demands higher prices—another higher profits—another a higher wage or salary—soon everybody would be making the same demands—demands on everyone else.

Then costs of production could not be controlled.

The ceiling could no longer be held.

Living costs would go up—

INCOME
OUTGO
 and **INCOME**
 begin their frantic rise.

H. PIEGRASS, Prop.

"So you have married the Queen of your heart?"
"Yes, and today she made the first speech from the throne."

Wellington received a nice shower Tuesday evening last which refreshed everything and was enough so that roads were quite muddy and slippery Wednesday until noon.

NICOTINE SULPHATE CHECKS
APHID DAMAGE

Aphids or plant lice can be controlled much more easily at the beginning of an outbreak than later in the season, when their numbers will have increased and the leaves on which they were feeding become curled up in such a way as to protect them from sprays and dusts. These aphids are soft-bodied insects which feed in clusters on a wide variety of plants, and they also vary widely in colour—white, green, black and blue. They should be checked at once.

The easiest and best method of control, states Alan G. Dustan, Dominion Department of Agriculture, is to spray the plants with nicotine sulphate 40 per cent and water, to which has been added a small amount of laundry soap. The nicotine should be used at the rate of 3-8 of a pint to 40 gallons of water, with two pounds of soap added. When small amounts are required, use two teaspoonfuls of the nicotine in a gallon of soapy water. Apply the spray on a hot, calm day and drench both the upper and the lower surfaces of the leaves so as actually to kill the insects.

In protecting field crops, at least 100 gallons of the spray should be used per acre at each application.

Drought Resistance

Despite the favourable moisture conditions prevailing in the Prairie Provinces during recent years, we must not forget that drought is still the greatest hazard in the production of crops and livestock.

There is no evidence that the amount or seasonal distribution of rainfall can be influenced by man, in spite of claims sometimes made by enthusiastic tree planters. Therefore, all we can do is to make better use of the rainfall we get. Broadly speaking, this is done in three ways. The first involves water-saving devices, such as dams and dugouts for farmstead water supplies and even for small scale irrigation. The second involves tillage practices which prevent or reduce runoff and which control weeds.

The third method is concerned with the use of drought resistant varieties or crops. A drought resistant crop is one which makes efficient use of a limited supply of moisture. For example, crested wheat grass is drought resistant, timothy is not. Similar, though smaller, differences may be observed between different varieties of wheat. On the open plains, where moisture is usually limited, some varieties yield more than others; but the differences are less pronounced than that between crested wheat grass and timothy. Writers and speakers who offer hope that the drought problem will be solved by resistant varieties as was the rust problem are false prophets. Our wheat breeders will make progress but it will be slow and gradual. Don't look for a "Russian Thistle" wheat variety.

Fred Ralph was taken to the hospital Tuesday afternoon suffering back on the job again after being from appendicitis and was operated on for a week with an attack of appendicitis. He is progressing favorably.

Two or three applications at weekly intervals will be necessary for complete control.

When nicotine sulphate has to be bought in quantity, purchasers should insist on getting it in large containers rather than in a number of small bottles or cans, because the cost is much reduced when the material is bought in bulk lots.

The new washerwoman has stolen two of our best towels. "The thief Which ones, dear" "The ones we got from the hotel in Montreal."

Fire early Tuesday morning destroyed the \$5000 barn of O. B. Lassiter at Chiu. An estimated 10,000 bushels of wheat stored in the barn is reported to have been destroyed.

WAR-TIME SAVING for NATIONAL and PERSONAL Security

Every thoughtful person agrees that in this time of war SAVING should be practised *intensively*, and for the following reasons:

- 1) Financing the war
- 2) Keeping prices down
- 3) Providing for the future

By saving instead of spending now, you will help yourself and your country—provide for Canada's security today and your own security tomorrow.
